GP Team

We would like to welcome Dr Dalia Juneenath to the team as a Salaried GP, Dalia has been working with us over the last 12 months whilst she has been finishing her training and we would like to congratulate her on passing her final exams.

How to Book Appointments

We have a range of appointments which are available to you and can be booked in the following manner:-

- Book in advance – routine non urgent problems, on-going medical conditions, routine reviews
- Book on the Day – e.g. deterioration in your symptoms or long term condition
- Sit & Wait – every morning for a new problem and urgent on the day matters Do not utilise these appointments for items like renewing a sick note or routine review of an on-going problem
- Online Consultations – available to request medical advice that does not require immediate attention e.g. chest pain
- Extended Access – available on evenings and weekends at Coalville, Hinckley and Loughborough Hospital, can treat minor illnesses or symptomatic long term conditions
- Call backs – you can speak to our team e.g. continuing sickness certificate, discuss results of investigations

We would like to remind you that not all instances need to be seen on the day or by a GP. Our team will navigate you to the best placed appointment and clinician for your symptoms or medical condition.

Patient Online

Don't forget that GP and Nurse Practitioner appointments are available to book online or through the NHS App. If you would like a Patient Online account, please bring in photo ID and reception will create an account for. Alternatively visit your phone App store and follow the instructions on the NHS App to register.
